Contenu des Proceedings

Proceedings of the 3rd European Summer University
Rapid Manufacturing: "Goals and Innovation"

CONTENTS

SECTION 1 RAPID MANUFACTURING (RM)

- 1 Platform on Rapid Manufacturing
A. Gerrits, Coordinator of the Platform on Rapid Manufacturing, TNO Industrial Technology, The Netherlands
- 2 AFPR: French Association for Rapid Prototyping (*in French*)
G. Taillandier, Président de l'AFPR
- 3 Opportunities of new technologies at Siemens. CT Laser Melting Technology as a Manufacturing Process
Martin Schäfer, Siemens AG, Corporate Technology, Dept. CT MM 6, Packaging and Assembly, Berlin, Germany
- 4 Laser Assisted Technologies for Direct Manufacturing from metallic powders
I. Yadroitsev, Ph. Bertrand, B. Laget, I. Smurov, Ecole Nationale d'Ingénieurs de Saint-Etienne (ENISE), DIPI Lab., Saint-Etienne, France
- 5 Layer-by-Layer SLS process of 3D ceramic parts from oxide powder mixtures used in SHS
I.V. Shishkovsky, P.N. Lebedev Physical Institute, Samara Branch, Russian Academy of Sciences, Samara, Russia
- 6 Laser synthesis of functionally graded filter elements from metal-polymer powder compositions
I.V. Shishkovsky, P.N. Lebedev Physical Institute, Samara Branch, Russian Academy of Sciences, Samara, Russia
- 7 On the elaboration of metallic powder by gas atomizing process
L. Dembinski, C. Coddet, Laboratoires d'Etudes et de Recherche sur les Matériaux, les Procédés et les Surfaces, LERMPS- UTBM, Belfort, France
- 8 Rapid tooling for metallic injection
E. Pessard, F. Gillot, J.Y. Hascoet, P. Mognol, IRCCyN 1, Nantes, France
- 9 Simulation of laser assisted rapid manufacturing from metallic powder: basic problems
A.V. Gusarov, Ecole Nationale d'Ingénieurs de Saint-Etienne, DIPI Lab., Saint-Etienne, France
- 10 Optical diagnostics in laser surface treatment
M. Doubenskaia, Ph. Bertrand, I. Smurov, Ecole Nationale d'Ingénieurs de Saint Etienne, DIPI Lab., Saint-Etienne, France
- 11 From rapid prototyping to Rapid manufacturing
B. Verquin, CETIM (Technical Centre of Mechanical Industries), France
- 12 Rapid Tooling Evolutions & Applications
B. Le Razer, Pôle Européen Plasturgie, France
- 13 Laser Forming
G. Caquot, TRUMPF, France

SECTION 2 SPRAYING TECHNOLOGIES (ST)

- 1 Cold Spray: state of the art and basic applications
A. Papyrin, Cold Spray Technology, Albuquerque, NM, USA
- 2 Cold Spray: ITAM basic and applied research

V.F. Kosarev, Khristianovich's Institute of Theoretical and Applied Mechanics SB RAS, Novosibirsk, Russia

3 Perspectives of application of Cold Spray for direct manufacturing

A. Papyrin, Cold Spray Technology, Albuquerque, NM, USA

4 Multicomponent Cold Spray Coatings

V.F. Kosarev, Khristianovich's Institute of Theoretical and Applied Mechanics SB RAS, Novosibirsk, Russia

5 The new generation of Cold Spray System KINETIKS 4000H.

Höll, P. Richter, Cold Gas Technology GmbH, Germany

M. Ducos, CONSULTANT Mornas, France

6 Detonation Spraying: scientific basis, installation, technology and industrial application

V.Yu. Ulianitsky, Lavrentyev Institute of Hydrodynamics SB RAS, Novosibirsk, Russia

7 Tribologic investigations of nanomaterials

N.I. Smirnov, M.V. Prozchega, Blagonravov Mechanical Engineering Institute RAS, Moscow, Russia

8 Tribology of mechanical systems

N.I. Smirnov, Blagonravov Mechanical Engineering Institute RAS, Moscow, Russia

9 La technique Cold Spray. Dépôts conducteurs par procédé Cold Spray: Etat de l'Art et perspectives

G. Ezo'o, Critt METALL2T, LORIUS, France

10 Optimization of cold spray nozzle and deposition characteristics of cold-sprayed coatings

W. Li, L. Dembinski, H. Liao, C. Coddet, Laboratoires d'Etudes et de Recherche sur les Matériaux, les Procédés et les Surfaces, LERMPS- UTBM, Belfort, France

SECTION 3 NUMERICAL SIMULATION (NS)

1 Hierarchy of mathematical models describing interaction of laser radiation with matter

V.I. Mazhukin, Institute of Mathematical Modeling of the Russian Academy of Sciences, Moscow, Russia

2 Influence of the laser radiation wavelength in evaporation and plasma formation processes: Comparative analysis

V.I. Mazhukin, Institute of Mathematical Modeling of the Russian Academy of Sciences, Moscow, Russia

3 Simulation of pulsed laser action of nanosecond range

A.V. Gusarov, I. Smurov, Ecole Nationale d'Ingénieurs de Saint-Etienne, DIPI Lab., Saint-Etienne, France

4 Laser pulse time profile influence on material treatment

V.I. Mazhukin, M.G. Lobok, Institute of Mathematical Modeling of the Russian Academy of Sciences, Moscow, Russia

I. Smurov, Ecole Nationale d'Ingénieurs de Saint-Etienne, DIPI Lab., Saint-Etienne, France

5 Electronic and emission properties of metals and semiconductor

A.V. Mazhukin, Institute of Mathematical Modeling of the Russian Academy of Sciences, Moscow, Russia
